World Innovation Guide - loweii

We are proud to present our world novelty loweii at the InnoTrans. loweii is the holistic solution consisting of autonomous measurement technology and an expert system for monitoring and energy optimization of direct current systems - you can find out more about this at our stand. Come by!

Last but not least:

There are at least two different ways to make a move with a tangram puzzle. Which? Come to our booth and find out!

You will find out in the next newsletter:

Everything about the world premiere of loweii - the holistic solution of autonomous measurement technology and an expert system for monitoring and energy optimization of direct current systems.
